

CIS 600 Data Mining

Assignment 2

This assignment is due by the day of week 8 live session. If you make any assumptions, clearly state them in your answer.

Submit your proposal.

Your proposal should have a draft of your abstract and introduction. If you are doing a **research project**, your proposal should have your previous work, experiment design, and a proposal section that should describe your remaining work. If you are doing a **survey paper**, your proposal should include about 1/3 of your paper survey, and your path forward.
